

TENTE SUPER SETS

Tente Super Sets include a generous helping of standard pieces, plus lots of the specialised pieces that help make Tente so realistic.

There are 4 Super Sets available: 2 Marine, 1 Astro and 1 Road. And there are enough bricks in each set to make all the models illustrated.

With Tente Super Sets, literally you can build almost any model you can imagine.

Catálogo TENTE Denys Fisher Finales 70

Tente is a fabulous new building system which gives more realism than any other. With Tente, a boat looks more like a real boat; a truck looks more like a real truck; so building is more fun. That's because Tente has many more curved pieces and special bricks. And every piece is interchangeable with pieces from other Tente sets: in fact the building possibilities are as limitless as your imagination.

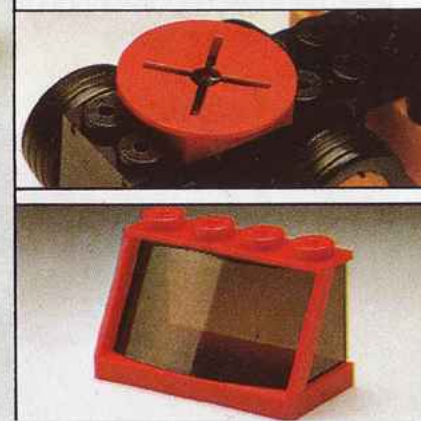

TENTE ASTRO
Tente Astro has lots of special features; astronauts, solar panels, chrome exhausts, wide tyres, perspex and opaque domes. You can make everything from lunar modules to space stations, laser vehicles to command tanks.

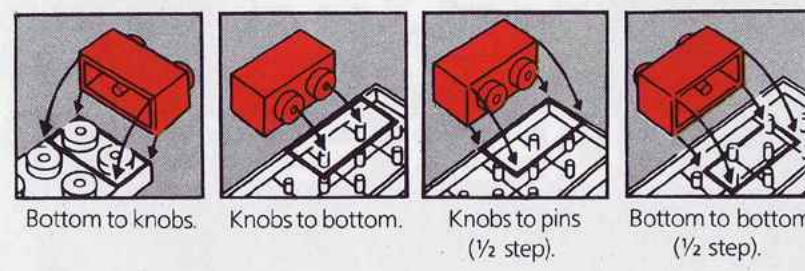

TENTE MARINE
Now you can start your own fleet! The six ships are ultra-realistic—they have masts, port holes, shaped bows, derricks, flags and much, much more. And of course, Tente is so versatile that a large number of models can be made from each kit.

TENTE ROAD
The four Tente Road models are shown opposite. Like Tente Astro, the Road vehicles move on fast-running wheels!

4 fabulous ways to build.
